In her captivating book, *Alaska Chance: Alaskan Women of Caliber*, author Jane Doe chronicles the extraordinary stories of these pioneering women. From homesteading to aviation to environmental advocacy, these women have played a pivotal role in shaping Alaska's identity and legacy.

### Homesteading on the Frontier

Before the advent of statehood in 1959, Alaska was a rugged and remote territory, where women faced unique challenges and opportunities. Many

women homesteaded on the frontier, carving out a life for themselves and their families in the wilderness.

One such homesteader was Sarah Palin, who arrived in Alaska in 1967 with her husband and young children. The Palins built a homestead on the Susitna River, where they raised sled dogs and lived a subsistence lifestyle. Sarah Palin went on to become the first female governor of Alaska, serving from 2006 to 2009.

### **Aviation Pioneers**

In the early days of aviation, Alaska was a hub of activity, as pilots sought to explore the vast and uncharted territory. Women played a significant role in the development of aviation in Alaska, both as pilots and as mechanics.

One of the most famous female aviators in Alaska was Ruth Alexander. In 1929, she became the first woman to fly solo from the United States to Alaska. Alexander went on to establish a flying school in Fairbanks, Alaska, and she trained many of the pilots who would go on to serve in World War II.

### **Environmental Advocates**

Alaska's pristine environment has long been under threat from development and pollution. Women have been at the forefront of the fight to protect Alaska's natural resources, advocating for responsible land use and wildlife conservation.

One of Alaska's most outspoken environmental advocates is Lois Epstein. In 1971, she co-founded the Alaska Conservation Society, a nonprofit organization dedicated to protecting the state's environment. Epstein has

been instrumental in advocating for the protection of the Arctic National Wildlife Refuge and other sensitive areas in Alaska.

## **Legacy of Courage and Perseverance**

The women profiled in *Alaska Chance* are a testament to the courage, perseverance, and determination of women in Alaska. Their stories are an inspiration to everyone who dreams of making a difference in the world.

Through their homesteading, aviation, and environmental advocacy, these women have shaped the Last Frontier and left a lasting legacy for generations to come.
